Why attend?

2nd edition

Attending the Global Avocado Summit 2026 means placing yourself at the heart of an industry moving toward sustainability and commercial resilience. Its first edition, held in 2024, brought together over 650 attendees and 50 sponsoring companies, confirming the global interest in this space for analysis, connection, and future strategy.

As markets become increasingly focused on the environmental and social impacts of what they consume, the Global Avocado Summit offers unique, practical tools to help businesses compete with purpose.

In just one day, participants will gain access to global solutions and experiences related to water sustainability, certifications, traceability, access to new markets, applied technologies, and evolving consumer demands.

It's a space to build partnerships, draw inspiration from successful case studies, and make informed decisions in a business where reputation and responsibility now weigh just as heavily as quality.

Don't miss out!
